

Hello all,

I am so excited about our new Cleaning Company that I would like to share information with you.

Clean Works London is a new company established under the umbrella of Pathways Skill Development which is a non profit organization. Clean Works is very reasonably priced because their focus is on creating jobs, not on profit. The individuals that are placed in the janitorial positions have completed an extensive training program through Pathways. These people are individuals who need more work experience, references or sometimes just a break.

The employee is bonded and the Operation Manager at Clean Works assesses your environment and provides a very detailed job description according to your needs and I found her to be very flexible. In our case, they will be ordering and supplying all the cleaning supplies but that was an option.

No job is too small and our new cleaner is very dedicated to our cleanliness and has already made a huge impact on our work environment. There are other program graduates waiting to be placed.

You will see from the website that Clean Works can also be hired for Graffiti Removal or Power Washing. www.cleanworkslondon.ca

If interested, please contact Becky Thompson, Operation Lead of Clean Works. Her contact information is becky@cleanworkslondon.ca or 519-639-6428
